

Regents Policy Manual (RPM)

The Regents Policy Manual is the collection of policy statements, formally approved by the New Mexico State University Board of Regents, which govern the University at the highest level. The Regents have granted authority to the University administration to adopt additional rules and procedures as may be appropriate and necessary to implement the Regent's policies. Those additional rules and procedures, published as the "Administrative Rules and Procedures" (ARP) have the force and effect of policy as long as the rules and procedures are consistent with the policy directives from the Regents as contained in this Regents Policy Manual.

New Mexico State University

1.00 NMSU Structure of Governance

 rpm.nmsu.edu/1-00

A. History

New Mexico State University was founded in 1888 as Las Cruces College. The Territorial Legislature of 1889 established the land-grant Agricultural College and Experiment Station, which officially opened on January 21, 1890.

During its first full academic year, the college became known as the New Mexico College of Agriculture and Mechanic Arts, the first degree granting institution in the Territory. Under the provisions of the Morrill Act of 1862 and subsequent federal legislation, the special mission of land-grant institutions has been to provide a liberal and practical education for students and to sustain programs of research, extension education, and public service.

In 1960, New Mexico College of Agriculture and Mechanic Arts became New Mexico State University (NMSU).

B. Mission

The mission of the New Mexico State University system is to serve the diverse needs of the state through comprehensive programs of education, research, extension and outreach, and public service. As the state's land-grant and space-grant university, and as a Hispanic-Serving Institution, NMSU fosters learning, inquiry, diversity and inclusion, social mobility, and service to the broader community.

C. Establishment and Governance

The New Mexico Constitution establishes New Mexico State University as one of the state's postsecondary educational institutions, and requires the legislature to provide for the control and management of the institution

through a five member Board of Regents (Board), which serves as the governing body for both New Mexico State University as well as for the New Mexico Department of Agriculture (NMDA).

D. Board of Regents Authority and Responsibility

The authority and responsibility of the Regents to control and manage the institution is prescribed by the legislature in state statutes. See Appendix RPM 1.00 – A for additional details related to the Board’s constitutional and statutory authority related to NMSU and NMDA.

In order to fulfill those responsibilities, the Board has adopted and will be governed by the Bylaws of the Regents of New Mexico State University. The Bylaws include information about internal operations of the Board, related to Board member duties and responsibilities, meeting notice and agenda preparation, and details about established Board of Regents committees (See Appendix RPM 1.00 – B Bylaws of the Regents of New Mexico State University.)

The Board carries out the duties and functions authorized by law and specified in this policy manual including, but not limited to the following:

- The Board appoints the Chancellor of the university and the director of the New Mexico Department of Agriculture and delegates authority to implement the directives and policy decisions of the Board.
- The Board adopts and files, in accordance with the State Rules Act [14-4-1 NMSA 1978], regulations as may be necessary to carry out the duties of NMDA.
- The Board adopts Regents’ policies for the governance of the University, and periodically reviews the Regents’ Policy Manual for compliance and revision.
- The Board approves the annual operating budget submitted to the New Mexico Higher Education Department and any Budget Adjustment Requests (BAR) that may be required.
- The Board may establish or abolish from time to time such offices and positions as may be necessary to support the Board in their governance and policy-making roles on behalf of the university and the NMDA.
- The Board of Regents approves conferral of degrees, including honorary degrees, and the creation, reorganization, relocation, or elimination of any academic organizational unit, degree or major field of study. The Board considers proposed rules establishing student admission criteria. (RPM 4.00)

- The Board adopts a campus master plan and approves significant real estate, tangible property, and water rights transactions which would permanently affect NMSU's rights in real estate, asset inventory or water rights and may determine the use of any funds derived from these transactions. (RPM 12.00, ARP 12.90)
- The Board approves any new or significantly revised capital project that results in the addition of building square footage or the demolition of all or any portion of existing buildings. (RPM 12.00, ARP 12.30)
- The Board approves any proposal to issue bonds for capital improvements. (RPM 12.00)
- The Board approves the funding for the acquisition, restoration or preservation, improvements or deaccession of certain types of art, archives and other collections. (RPM 12.50)
- The Board approves the addition or elimination of athletic programs, and approves changes in conference membership. (RPM 17.00)
- The Board approves naming the university's major physical entities including buildings, structures, indoor and outdoor spaces, academic and administrative organizational units at the college, school or department level or above. (RPM 18.00)

E. Role of the University General Counsel

The University General Counsel (UGC) attorneys represent the interests of the Regents of New Mexico State University (NMSU) as a constitutionally recognized legal entity (applicable to each NMSU component and NMDA), acting through its Board of Regents (Board). The general counsel, also referred to as chief legal affairs officer, reports functionally to both the Board of Regents and to the Chancellor, and reports administratively to the Chancellor. The general counsel is selected by the Chancellor, upon consultation with the chair of the Board of Regents.

F. Shared Governance

Shared governance refers to the governance of the university in which responsibility is shared among the Board of Regents, the faculty and the administration, system-wide. Consistent with the principles of the American Association of University Professors (AAUP), the general faculty are

represented through the Faculty Senate and other faculty representatives. For purposes of this policy, the Chancellor and respective direct reports, will be collectively referred to as “administration”.

The following directives apply to the practice of shared governance of the university:

1. The Board of Regents governs the NMSU system, by the enactment of policies and by its delegation of operational authority through the Chancellor.
2. The administration has responsibility for and will involve faculty in strategic plan development, budget, operational policy development and process. With the exception of interim appointments, the administration will involve faculty in the selection process of academic and other executive administrators.
3. The faculty has responsibility for and will involve administration in areas of curriculum, subject matter, methods of instruction, research, faculty status, and aspects of student life which relate to the educational process.

G. Faculty Senate

The Faculty Senate has legislative prerogative to initiate and develop rules and procedures affecting the university's academic mission in regard to education, research, and service, including but not limited to the Administrative Rules and Procedures of NMSU and the Course Catalog. The NMSU Faculty Senate Constitution provides specifications relating to the Faculty Senate's composition, elections, terms of office, officers, committees, meetings, legislative processes, and methods to amend the constitution. See Appendix –RPM 1.00 – C –Constitution of the Faculty Senate. Additional details about the operation of the Faculty Senate are contained in the Faculty Senate Bylaws.

In accordance with principles of shared governance and in recognition of the critical role of the Faculty Senate in formulating academic policy:

1. The Faculty Senate will develop recommendations for changes to academic policy, including modifications of programs, adding or removing programs and other matters directly relevant to the faculty experience in the classroom.

2. Recommendations (or propositions) affecting academic policy approved by the Faculty Senate are subject to acceptance or veto by the Chancellor.
 - a. The Chancellor will propose recommendations or propositions for consideration to the Board in accordance with the Board of Regents Bylaws.
 - b. If a proposition or recommendation is denied or vetoed by the Chancellor, the Chancellor will inform the Board and faculty senate regarding this decision.
3. Faculty Senate legislation will become effective upon approval by the Board of Regents or by the Chancellor's delegated authority.

In recognition of the commitment required to serve as officers of Faculty Senate, the chair and vice chair of the Senate will be provided with commensurate compensation for their time and effort based on their teaching load. The chair of the Faculty Senate will serve as an Advisory Member to the Board of Regents and the vice chair may serve as a proxy if the Faculty Senate chair is not available.

1.10 NMSU System Policies and Rules

 rpm.nmsu.edu/1-10

Pursuant to the authority granted under the New Mexico Constitution and related statutes, the Board of Regents governs New Mexico State University and the New Mexico Department of Agriculture (collectively the “NMSU System”) through the adoption of policies, rules and procedures (“policies”). These policies provide direction relating to the mission and goals for the NMSU System, as well as the Board’s delegation or reservation of authority. The purpose of this policy is to establish a framework for the adoption of the NMSU System policies and to authorize the development of enforceable operational rules and procedures as may be necessary to achieve the goals and directives established by the Board of Regents.

A. Regents Policy Manual (RPM)

Policies approved by the Board of Regents, referred to as regents policies, shall be maintained in a document titled “Regents Policy Manual” (RPM), formerly titled, the “NMSU Policy Manual”, which may take the form of an online website.

B. Scope of Application

Regents policies apply to the entire NMSU system, unless otherwise provided in the policy.

C. Revisions to RPM

Revisions to the Regents Policy Manual, except as otherwise provided below, are effective upon approval by the Board of Regents in open meeting, or on such other date as reflected in the Board's motion or approved policy. In those instances where there is a compelling need for an immediate policy change, the chancellor may adopt and implement provisional policy, provided that the provisional policy is presented to the Board of Regents for ratification in open meeting as soon as practicable.

D. Implementing Rules

The chancellor is authorized to adopt operational rules and procedures as may be appropriate and necessary to implement the policies adopted by the Board of Regents, and to ensure efficient and effective organizational/transactional control. Those rules and procedures which have been formally adopted and approved by the Chancellor shall be maintained in a document entitled "Administrative Rules and Procedures of NMSU" (ARP) which may take the form of an online website. The ARP shall apply throughout the NMSU system unless otherwise provided. The university shall include in the ARP a process that provides adequate opportunity for university stakeholders to provide comment regarding proposals to amend, repeal, or propose new policies or ARP provisions.

E. Shared Governance

Policy and rule proposals which involve the academic mission and matters of shared governance, as defined in **RPM 1.70**, shall be reviewed and approved by the Faculty Senate before submission to the chancellor for final approval. Any such proposal not approved by Faculty Senate shall become effective only upon approval from the Board of Regents.

F. Non-Contractual Policies/Rules

Provisions contained in the Regents Policy Manual and Administrative Rules and Procedures shall not create any type of contract, implied or otherwise, between the regents and its employees or any other individual or entity. Regents policies and rules in the ARP may be amended or revoked at any time in accordance with this policy and **ARP 1.10**. The rules in the ARP have the same force and effect as the policies approved by the Regents provided that such rules are not in conflict with the regents policies.

2.00 Organizational Charts and Reporting Relationships

 rpm.nmsu.edu/2-00

The hierarchical organizational structure of NMSU and NMDA and their components shall be set forth in one or more organizational charts which shall be available via the institution's website. The organizational charts shall indicate reporting relationships. A solid line connecting a specific position or unit to another higher level position or unit typically indicates both administrative and functional reporting to the same higher level individual or position. Where a unit or position also has a dotted line connecting it to a different higher level position or unit, the dotted line shall indicate the functional reporting relationship, while the solid line indicates the administrative reporting relationship.

The administrative reporting relationship establishes a clear line of authority between positions or units in the organizational hierarchy. The actions of the subordinate are subject to the direction and/or approval of the next higher level of management, irrespective of the autonomy the latter may choose to grant to, or withhold from, subordinate levels. Subordinate positions never report administratively to more than one higher level supervisor.

The functional reporting relationship establishes a connection between positions or organizational units at different management levels based on the specialized nature of the function for which a mutual responsibility is shared. In this type of situation, often referred to as an indirect reporting relationship, the higher level position or unit provides functional guidance and support to positions or units lower in the organizational structure.

2.10 Non-Academic Units – Creating, Reorganizing, Relocating, Eliminating

 rpm.nmsu.edu/2-10

For the purpose of this policy, a non-academic unit is defined as a unit that is not within a college, an undergraduate major, a graduate degree program or the library, whether these units are located on any NMSU campus. Any proposal to create, reorganize, relocate and/or eliminate a non-academic unit must be submitted for review and approval through the appropriate vice president, vice provost or dean and the provost and senior vice president for academic affairs. (See Flow Chart – Nonacademic Program/Unit Changes at Appendix 2-A.)

If a change results in a structural change to the organizational hierarchy, the change will be effective January 1 or July 1 following the approval. Structural changes are defined as changes that affect the hierarchical organizational and reporting structure. Changes to organizational attributes may be processed at any time throughout the year. These changes are defined as: department long title, acronym, mail stop code, PO Box number, street address, city, state, zip code, building name (See ARP 18.10 – Namings), room number, telephone number, fax number and departmental e-mail address.

Procedure: After the appropriate administrative approvals are obtained, the requesting department head/director must submit an Organization Request Form to the Office of Human Resource Services for processing. The form must be submitted with all relevant documentation attached no later than November 30 (for January 1 effective date) and May 31 (for July 1 effective date).

2.20 NMSU Community Colleges

 rpm.nmsu.edu/2-20

A. Land Grant Mission

The special mission of the university as a land-grant institution established under the provisions of the Morrill Act is to provide a liberal and practical education for students and to sustain programs of research, extension education and public service. The provisions of the Branch Community College Act of the State of New Mexico (NMSA 1978 Sec. 21-14-1 et seq) enable institutions of higher education to establish branch community colleges at the request of communities to meet their educational needs. The university has a long history of success in serving the citizens of New Mexico through its community colleges. The benefits to students for access to quality education through the NMSU community colleges have been documented and recognized. The Board of Regents supports, endorses, and recognizes the reciprocal benefits of its relationship to its community colleges and recommends the continuity of this partnership as one which contributes significantly to the educational and economic development of the state of New Mexico.

B. Policy Statement

The NMSU Board of Regents pledges full cooperation in the further development of its community college programs to ensure that the higher educational needs of the several communities are fully met. Each of the community colleges will develop its own mission and purpose statement, which shall be brought forward periodically for review by the Board of Regents.

C. Administration of Community Colleges

Each community college is administered by a campus president under the cognizance of the NMSU Chancellor. Community college academic issues are administered by their respective campus president, with oversight by the provost and senior vice president for academic affairs. (See **ARP 9.60 – Administrative Reviews**).

1. **Responsibilities of Community College Presidents:** The community college campus presidents are responsible for providing leadership for their campuses in the following areas:
 - a. Educational Programs
 - b. Faculty and Staff Appointments
 - c. Student Services
 - d. Community Relations
 - e. Maintenance and Care of Physical Plant
 - f. Facility Planning (See **ARP 12.70 – Use of NMSU Facilities** and **ARP 12.75 – Procedures for Change in Use of NMSU Facilities**)
 - g. Assessment/Accreditation
 - h. Campus Budgeting (a shared responsibility with the main campus Office of Administration and Finance)
2. **Course Approvals:** All new and revised community college courses are submitted for approval to the provost and senior vice president for academic affairs, who circulates the proposed changes to the appropriate Las Cruces campus colleges and committees.
3. **Program Approvals:** New designated associate degree programs proposed by the university's community colleges are submitted for approval to the provost and senior vice president for academic affairs, who prepares the proposal for review and approval by the appropriate Las Cruces campus college, the Associate Deans Academic Council, the Academic Deans Council, the Faculty Senate, and the Board of Regents.
4. **Semester End Dates:** Whenever possible, the end of semester in the community colleges shall be coordinated with the end of the semester on the Las Cruces campus so that it is possible to report grades of students simultaneously.
5. **Faculty Credentials:** (See **ARP 6.50 – Faculty Credentials Required of NMSU Instructors of Record**)
6. **Transfer of Students to NMSU Las Cruces Campus:** Community college students who meet the admission requirements may transfer to the Las Cruces campus at any point or at the completion of the freshman and sophomore years.

7. **Use of Community College Facilities:** See **ARP 12.70 – Use of NMSU Facilities** and **ARP 12.75 – Procedures for Change in Use of NMSU Facilities**.

2.30 University Boards

 rpm.nmsu.edu/2-30

Much of the work of the university is accomplished through committees or other bodies consisting of the diverse and dedicated members from the university and local community. This policy provides guidance relating to the creation, “lifespan”, and cessation of these bodies that serve NMSU in advisory, investigatory, adjudicatory or other capacities. For purposes of this policy, the term “board” refers to any official body established to serve a university business purpose, whether it is referred to as a board, commission, committee, council, panel, task force, or other title. Because these boards are typically informal, advisory in nature, made up of volunteers or employees taking on duties in addition to their regular job duties, and not incorporated, they are not separate legal entities from the university.

A. Types of NMSU Boards

Due to the great number of boards utilized for a variety of functions, they will be distinguished by whether or not they serve the entire university community or a part thereof.

1. **University Board:** A university board is a body formally established by university policy or by directive from the Board of Regents, Chancellor, or provost and senior vice president for academic affairs.
2. **College and Departmental Boards:** A college, departmental or administrative unit board is a body appointed by a community college president, dean, vice president, associate dean, division or department head or other executive or academic administrator, whose work furthers the interest of the college, department or administrative unit by providing collective work product, advice, and/or recommendations.

B. Role in Policy Development

Any policy recommendations made by NMSU boards will be subject to the policy adoption protocol outlined in Title 1 of the Regents Policy Manual and in the Administrative Rules and Procedures of NMSU.

C. Formal Creation of Board

At the time any university board is created, the following shall be indicated:

1. The name of the board, and the authorizing body or official;
2. The type of board and scope of work (i.e. whether standing or ad hoc, and whether the scope of the board's work will impact the NMSU System or only a particular campus);
3. The purpose and authority of the board;
4. The membership, including whether the members are appointed by position or by individual, any special selection procedures (i.e. election by another university constituency or selection by that constituency's chair), the term of each member's appointment, whether terms are staggered, whether there are any ex-officio (non-voting) or other continuous members, and whether the appointed member may utilize a designee who will vote on the member's behalf;
5. How the board's chair is to be selected;
6. Whether or not a particular office will provide administrative support to the board;
7. Guidance relating to meetings, if appropriate.
8. The date at which the board creation is effective

For university boards, this creation document shall be distributed to all members of the University Administrative Council.

D. Upkeep

1. All university boards, which include neither those sub-committees of the Faculty Senate, Employee Council or other university boards, nor those corporate entities which may be affiliated with NMSU, shall be listed in the NMSU **Official List of University Boards**, maintained by the Chancellor's chief of staff. The Chancellor's chief of staff is responsible for ensuring processes are in place to update the listings to keep them current as of 30 September each year. See **Official List of University Boards**.
2. All ad hoc university boards shall have a term of no longer than one year, and within that year shall be reviewed by the official(s) who established it, to determine whether or not the board's term should be extended. When it has been determined that the task for which the board was created has been completed or otherwise discontinued, the authorizing body or official shall direct the cessation of the board in writing to members of the University Administrative Council and reference to the board will be removed from the **Official List of University Boards**.
3. If there is any doubt regarding the status of any university board, and after consultation with the chair of the Board of Regents or key personnel (as appropriate), the Chancellor or the provost and senior vice president for academic affairs (as appropriate) will provide direction to the Chancellor's chief of staff.
4. All standing university boards shall provide an annual report to the authorizing board or official no later than June 30 of each year, including the most current list of members.
5. All college, departmental and other administrative unit boards shall be maintained by the office of their respective appointing officials. The college, departmental and other administrative unit boards shall not be listed in the **Official List of University Boards**.

3.00 Conflict of Interest-Ethical Conduct

 rpm.nmsu.edu/3-00

A. General Statement

Inherent within the responsibility for educating the future leaders of our society is the obligation to adhere to the highest ethical standards and principles. New Mexico State University is committed to maintaining the highest standards of ethics and integrity in all of its academic and administrative operations, by promoting such standards among its regents, administrators, faculty, staff, students and others acting on behalf of the university (including those acting on behalf of university controlled entities) and by striving to ensure a level of accountability appropriate for a public institution.

B. Principles of Ethical Conduct

1. Members of the university community are expected to exercise and demonstrate personal and professional honesty and to respect the rights, values and contributions of others.
2. Members of the university community are expected to be aware of and comply with relevant laws, regulations, contract requirements and university policies and procedures. An unethical practice should never be condoned on the grounds that it is "customary" or that it serves a worthy goal.
3. Individuals with access to confidential, proprietary or private information must never use or disclose such information except where authorized or legally obligated to do so.
4. All members of the university community are responsible for avoiding, where possible, real or potential conflicts of interest and commitment between personal and professional responsibilities, including relationships that have the appearance of a conflict.

5. The university's interests should be foremost in all official decision making and employees and others acting on behalf of the university shall remove themselves from decision-making roles that involve them in any personal capacity or which involve their friends or family members.
6. All individuals acting on behalf of the university have a responsibility to ensure that funds and other assets received are used in an ethical manner. Assets of the university (including personnel), whether tangible or intangible, may not be used for illegal purposes or personal gain.
7. Members of the university community shall strive to present all information, including financial information and research data and results, completely and accurately.

C. Addressing Concerns relating to Ethical Conduct

Individuals who have concerns about the propriety of a situation or about the conduct of a university employee or someone acting on behalf of the university, are expected to consult with appropriate university officials (that is, the person to whom the individual whose conduct is in question directly reports or, in the case of someone acting on behalf of the university, the chair of the Committee on Conflicts of Interest in Sponsored Activities, or when a regent is involved, the Chancellor). Confidentiality about individuals reporting violations of these standards will be maintained whenever possible and employees shall be free from retaliation for voicing concerns.

3.25 Equal Opportunity and Prohibition of Unlawful Discrimination

 rpm.nmsu.edu/3-25

A. Equal Opportunity and Non-Discrimination

Equitable treatment in employment and academic opportunities for faculty, staff and students encourages diversity and is recognized as a source of human excellence, cultural enrichment and social strength. Accordingly, New Mexico State University (NMSU) aspires to develop and support an inclusive university community. NMSU will provide equal opportunities in areas of employment, admission, academics, and access to programs and facilities, without regard to age, ancestry, color, disability, gender identity, genetic information, national origin, pregnancy, race, religion, serious medical condition, sex, sexual orientation, spousal affiliation or protected veteran status, as set forth in federal and state anti-discrimination statutes. NMSU prohibits all forms of illegal discrimination, including harassment, sexual misconduct, interpersonal violence, and retaliation; such conduct interferes with the achievement of NMSU's educational mission (See the NMSU Notice of Non-Discrimination and Equal Opportunity).

B. Discrimination Reporting and Complaint Processes

NMSU maintains the Office of Institutional Equity (OIE) whose mission shall be to address reports and complaints of discrimination or sexual harassment or sexual misconduct in a prompt, impartial and equitable manner. Where discrimination is found to have occurred, NMSU will act to stop the reported conduct, to prevent its recurrence, to remedy its effects, and to hold accountable through corrective or disciplinary action those found to be responsible for the misconduct. OIE is also authorized to address systemic issues which may be detected during the review and

resolution of reports and complaints. Further, OIE is responsible for providing training, information and guidance to the NMSU community regarding rights and responsibilities as they relate to this policy.

C. Gender Equity

NMSU affirms the sex and gender equality of all individuals and is committed to providing sex and gender equity within the NMSU community. NMSU adheres to Title IX of the Education Amendments of 1972, which provides that “no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance”.

D. Title IX Coordinator

The director of the Office of Institutional Equity is designated as the university's Title IX Coordinator. The Title IX Coordinator oversees all reports and complaints of discrimination on the basis of sex, including disparate treatment, sexual harassment, stalking, sexual assault and other forms of sexual violence, as well as retaliation. Additional Deputy Title IX Coordinators may be designated to work closely with OIE regarding all matters covered by Title IX.

E. Disability Accommodations

Qualified individuals with disabilities are protected from discrimination in hiring, promotion, discharge, pay, job training, and other aspects of employment. New Mexico State University (NMSU) is dedicated to providing equal opportunity through reasonable accommodations for qualified NMSU students, employees and applicants in accordance with state and federal laws.

F. ADA Coordinator

The University will designate one or more individuals to serve as ADA Coordinator(s) to facilitate the University's efforts to provide reasonable accommodations to qualified NMSU students, employees and applicants in accordance with state and federal laws.

G. Constitutionally Protected Free Expression and Illegal Discrimination

Harassing and other discriminatory misconduct in the workplace or in the academic environment, irrespective of whether it rises to the level of a violation of this policy or federal or state law, compromises the tradition of intellectual freedom and the aspirational values of mutual respect and civility honored by the institution. NMSU respects the rights of all and strongly encourages its students, faculty, staff and visitors to treat each other with respect and civility within the university community. At the same time, NMSU is also committed to the principles of free inquiry and freedom of expression. The right to zealous discussion and debate, even when such discussion includes disparaging or offensive remarks, is a fundamental right protected by the U.S. Constitution. Thus, there is an inherent tension between the important public rights to equal opportunity and non-discrimination, and the right to freedom of expression. NMSU will seek to protect these rights consistent with the U.S. Supreme Court and Tenth Circuit case law interpreting the Constitution and applicable federal and state statutes.

H. Administrative Rules and Procedures

In order to fully implement this policy, the university administration shall adopt administrative rules and procedures that are consistent with this policy.

3.63 Freedom of Expression

 rpm.nmsu.edu/3-63

A. Purpose

The purpose of this policy is to recognize, respect, and encourage the free exchange of ideas through written, spoken, and other forms of expression, including the right to peaceful assembly, as guaranteed by the First Amendment to the U.S. Constitution and the New Mexico Constitution. Furthermore, this policy clarifies application throughout the NMSU system by identifying the distinct types of forums, as well as to describe the reasonable restrictions, if any, which may be imposed in order to protect the university's teaching, research and service operations, and student activities from significant disruption and interference.

B. Scope

This policy applies to all people, and throughout the NMSU system (at all campuses, facilities and other real property under the operation and control of the NMSU Board of Regents, to include university sponsored events off-premises). Commercial solicitation is not covered by this policy and is governed by **ARP 3.09**.

C. Policy Administrator

The President at each campus shall have primary responsibility for the administration of this policy, on behalf of the NMSU Board of Regents. **Parties responsible for implementing and applying this policy also include, but are not limited to:**

1. Provost and Senior Vice President for Academic Affairs
2. Deans of the Colleges and Libraries and Graduate School
3. Dean of Students, including the Office of Campus Activities
4. Associate Vice President of Facilities and Services
5. Director of Athletics
6. Director of Housing and Campus Life
7. Director of Special Events
8. Manager or Building Monitor within any university facility

D. Definitions

For purposes of administering this policy, the following definitions apply:

1. **Affix** means to stick, to anchor, or to fasten to something else, regardless of whether or not it leaves a mark or causes damage.
2. **Commercial Speech** is speech that proposes a commercial transaction; the audience consists of prospective consumers, and the content of the message is business related in character.
3. **Content Neutral** means without regard to the viewpoint or message. Content neutral restrictions are those based on reasonable time, place, and manner rather than the content or viewpoint of the message.
4. **Forum** is a term used by the U.S. Supreme Court to help describe the extent to which content neutral restrictions on free expression may legally be applied. The three types described in this policy are: traditional open public forum; limited public forum and non-public forum. These terms apply not only to physical areas, but also to electronic communication and websites. The type of forum will be determined by the nature of the space being used, its traditional usage, official designations, and the circumstances relating to the nature of an event or function taking place in that location. For example, if a normally public forum were reserved for a specific event (following applicable university procedures) that might convert the location to a limited or non-public forum during the event for which it was reserved; conversely, areas such as special collections within the university are typically non-public forums, but may become limited public forums for certain special events.

5. **Social Media** means computer- mediated tools that allow people to create, share, or exchange information, ideas, videos, and pictures in virtual communities and networks.
6. **Speech** is written, spoken, and other forms of expression of thoughts, ideas, or positions, generally related to issues of public interest.
7. **University Premises**, sometimes referred to simply as “campus,” means all campuses, facilities, land, buildings, or other indoor or outside space owned, leased or otherwise under the operational control of NMSU. University owned property leased to other entities and not under the operational control of NMSU are not considered university premises for purposes of this policy.
8. **Unprotected Speech** means speech that is not afforded First Amendment protection, such as commercial speech that is false or misleading. Other examples include fighting words, child pornography, defamation, and libel.

E. Policy Statements

New Mexico State University aspires to be an intellectually open campus. Free exchange of ideas is a reflection of the university’s public land-grant heritage, interest in diverse points of view, and commitment to excellence in education and research. NMSU encourages free expression and peaceful assembly, provided they do not disrupt the university missions or functions. The type of forum, described below, will determine the level of restriction, if any, which may be imposed on free expression activities within the forum. Restrictions must be content neutral, typically geared to time, place and manner. The type of forum for a given location may vary, based on the circumstances relating to the nature of an event or function scheduled to occur at the location.

1. **Public Forums** are areas that traditionally have been open to the public, such as parks, sidewalks, and lobbies as well as other areas that become public forums by university designation. Free expression and civil discourse are encouraged in public forums, and any regulation of expression within a public forum must be narrowly tailored to serve a compelling state interest.

2. **Limited Public Forums** are areas open to the public or a segment thereof (including through the purchase of admission), but where there is a specific purpose. The necessities of confining a forum to the limited and legitimate purpose for which it was created may justify some limitations that are narrowly tailored to allow the event or activity to continue and/or achieve its intended purpose. Any limitations must be consistent with the spirit of this policy. Legitimate limitations include subject matter and classification of participants (students, student government representatives, faculty, etc.). Limitations must be reasonably related to a definite and substantial university interest. Any limitations must be content neutral, and aimed solely at reducing or preventing disruption to the activity that would cause a definite and measurable interruption to the intended purpose, or protecting other clearly compelling university interests (e.g., public safety). If a limited public forum serves more than one purpose, the university may prioritize the purposes for which it may be used, e.g. a campus auditorium may give priority to theater productions. Expression within a limited public forum is permitted consistent with the Procedural Guidelines administered by the Office of Campus Activities.
3. **Non-Public Forums** are areas not open to the general public and where expression by those permitted to be there may be reasonably limited, in a content neutral manner, to that which is compatible with the purpose and nature of the location. (Examples include faculty and administrative offices, classrooms, residence hall rooms, and archive and special collections of libraries.)
4. **Disruption of university functions or activities:** Regardless of the type of forum, free expression activities and events shall not materially or unreasonably interfere with the education, research, public service, and outreach missions of the university, office operations, or sleep of residents.
5. **Modes of Free Expression:** The university recognizes that there are many different modes of free expression, including distribution and posting of literature; group speech activities such as rallies, parades and demonstrations; electronic sound amplification, chalk, symbolic speech (e.g. nudity, fire, and/or weapons); and electronic communication. The limitations described in the Procedural Guidelines pertaining to the various types of expression are intended to safeguard personal safety and the university's missions, and not to hamper freedom of expression. See **ARP 3.63**, Section G.

6. Respect for Rights of Others:**a. Prohibition of Third Party Interference with Right to Free**

Expression: Except as provided elsewhere in this policy, university employees, students, and other members of the public shall not interfere with the rights of freedom of expression by others permitted by this policy. Alleged violations of rights afforded by the U.S. and N.M. Constitutions, recognized by this policy, will be taken seriously and investigated promptly and objectively.

b. Retaliation Prohibited: Retaliation against individuals who have exercised the rights granted by the First Amendment, recognized through this policy, is strictly prohibited. Any such claim should be reported immediately to an appropriate university official to register a complaint. Generally, the Office of the Dean of Students and the Office of Human Resource Services-Employee and Labor Relations administer student and employee grievances, respectively. Such claims will be taken seriously, investigated independently, and if substantiated, will be grounds for corrective or disciplinary action, appropriate to the circumstances.

7. Respect for University Property and Functions: In exercising the right of free expression and peaceful assembly, individuals must also accept the responsibility of following the laws related to the safety of people and property. Outdoor and indoor activities must follow all applicable fire codes and other local, state, and federal laws. See **ARP 3.63 – Freedom of Expression**, Section G. which may clarify limitations intended to safeguard missions and personal safety, and not to hamper free expression.

8. **Interface with other laws and regulations:** There is inherent tension that exists between competing public policies affecting individual rights. A detailed examination of statutes and regulations which protect individuals from sexual harassment, discrimination, hostile environment and other discriminatory conduct is beyond the scope of this Freedom of Expression policy. This policy is not intended to insulate persons from accountability for their actions if their conduct discriminates, harasses or otherwise creates a hostile environment based on any class protected by federal and state anti-discrimination laws. (See also **ARP 3.25 – Discrimination, Harassment and Sexual Misconduct on Campus**). Nothing in this policy is intended to provide a defense in any action against a third party by an alleged victim of defamation, libel, slander, invasion of privacy, assault, or any other civil or administrative claim.
9. **Dispute Resolution:** The successful implementation of this policy will depend upon the university community's education and engagement, including but not limited to understanding which types of planned activities require advance permission, and what to do if an event or expressive activity is questioned. As authorized by Section F., hypothetical scenarios are posed within the Frequently Asked Questions (FAQ's) posted at **<http://campusactivities.nmsu.edu/policies/>** to provide guidance about how this policy should be applied. Because time will often be of the essence when issues arise involving this policy, the informal methods listed below are available to supervisors, students, employees and members of the public in order that individuals may seek a policy clarification or interpretation in advance, in order to resolve issues in a mutually professional and amicable manner, rather than through more adversarial grievance or litigation methods. **These methods include and are not limited to:**
- a. A single point person will be designated by each NMSU campus president to serve as the liaison between members of the university community and/or the public and the Policy Administrators listed under Section C, in order to resolve issues expeditiously.
 - b. Individuals may request clarification of the policy or the Procedural Guidelines by contacting the designated point person. The designated point person will promptly respond to acknowledge the inquiry, and as appropriate or needed, may consult with any of the Policy Administrators prior to providing an interpretation to the individual.

- c. If the individual(s) wishes to appeal the interpretation provided by the designated point person, such notification must be given to the point person either in writing or via email. The point person will then call a meeting of the Policy Administrators (or any subset, depending upon availability) and the individual(s) as soon as practicable, which meeting may be conducted telephonically or electronically. The decision of the Policy Administrators will be rendered within one working day of the meeting and communicated to the individual via email or other contact information supplied by the individual.
- d. Students and employees also have recourse to file grievances against those who they feel may have restricted their rights under this policy, and shall follow the applicable student or employee grievance policy if the above steps have not resolved the dispute.

10. Sanctions:

- a. **Individual Consequences for Conduct Not Protected by Constitution or This Policy:** Nothing in this policy protects expressive activities which:
 - i. constitute criminal, defamatory, or discriminatory misconduct;
 - ii. contain true threats of violence or imminent harm; or
 - iii. seek to incite, or intentionally incite, a fight.

Individuals engaging in such conduct may face criminal prosecution, civil lawsuit, and/or disciplinary action. (For example, see **RPM 3.25 – Equal Opportunity and Prohibition of Unlawful Discrimination** and **ARP 16.21 – Restricted/Prohibited Access to Campus, ARP 10.50 – Faculty Alleged Misconduct Investigation, Discipline, and Appeals Processes**, and **ARP 10.10 – Staff Disciplinary Action/Involuntary Termination**). This policy does not provide a defense to individual liability for such prohibited conduct.

1.

- b. **Disclaimer of Liability:** NMSU shall not be liable for any injuries to participants or third parties caused by individuals or groups engaging in freedom of expression activities.
- c. **Damage or Injury:** If property damage or personal injury occurs, individuals or groups determined to be responsible may be subject to appropriate administrative, civil, or criminal action, for the purpose of covering the university's costs associated with the damages. Additionally, while generally NMSU wishes to facilitate free discussion, nothing in this policy is intended to eliminate any rights of persons to pursue any legal remedies they may have under local, state, or federal law.
- d. **Unattended or abandoned materials:** Materials used for free expression activities (literature, signage, etc.) shall not be left unattended. Any items that are left unattended for more than thirty (30) minutes may be removed by the university at the owner's expense. Signage promoting or providing directions to an event are allowed on the preceding day for a morning event or on the day of an afternoon or evening event, will not be considered to have been left unattended, and shall be removed by the event organizers at the conclusion of the event. Permission for posting or leaving of materials outside of the above restrictions may be granted on a case-by-case basis by the Office of Campus Activities.

F. Procedural Guidelines

To facilitate the implementation, administration and enforcement of this policy, the policy administrators identified above may develop and issue supplemental Procedural Guidelines consistent with this policy, which may include protocols, FAQ's, forms, flowcharts, etc. The Procedural Guidelines utilized in the application or enforcement of this policy shall be either outlined below in this Section, and/or posted at an appropriate NMSU website, and linked from this section. New Mexico State University

3.80 Prohibition of Bullying, Hazing and other Hostile Misconduct

 rpm.nmsu.edu/3-80

New Mexico State University is committed to fostering a welcoming and inclusive environment in which all students, faculty, staff and visitors demonstrate respect and civility toward one another. Such an environment is essential to achievement of the university's mission. Bullying, hazing and other forms of hostile misconduct have no place within a community of scholars.

New Mexico State University does not permit or tolerate hazing, bullying, or other forms of hostile misconduct, nor retaliation against persons who report such misconduct. Some forms of such misconduct may violate the law; however, this policy also addresses misconduct which is not necessarily unlawful. 6.10 Faculty and Academic Administrators

 rpm.nmsu.edu/6-10

6.11 Academic Freedom

 rpm.nmsu.edu/6-11

The quest for truth often leads the scholar into difficult and untried territory. As a dealer in ideas, the teacher or researcher comes often in conflict with prevailing belief of large segments of society and even with those of colleagues. Yet, because of the practical benefits of scholarly activity, it is profoundly important that this diversity of ideas be not only tolerated, but encouraged. The right to support unorthodox positions, arrived at through scholarly investigation, free from coercion or reprisals, is fundamental to the continued progress of society. The right to pursue unpopular lines of inquiry and express new and unaccepted ideas falls within the framework of a special set of guarantees called academic freedom. In granting these guarantees, society expresses a willingness to risk the consequences because history confirms that the risk is outweighed by the benefits stemming from such a policy. Scholars are entitled to full freedom in the conduct of their research and publication of the results, and full freedom in the classroom to discuss those topics in which they are professionally experts as determined by their credentials. The exercise of this freedom carries with it the burden of corollary responsibilities. Scholars must not knowingly misrepresent facts. They must be careful in their teaching not to introduce controversial matter bearing no relationship to their subjects. They must exercise appropriate restraint and guard against distortions and inaccuracies. Outside their academic roles, as private citizens, scholars have no special privileges. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As persons of learning and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution. Institutions of higher education are conducted for the common good and not to further the interest of either the individual scholar or the institution as a whole. The Board of Regents recognizes that it is not possible to define, with any great precision, the limits of academic freedom

in the complex world of ideas. The gray areas are practically endless and the final judgment of what is acceptable and reasonable must be left by society to the academic community itself. The scholar's own colleagues and institution must bear the brunt of public criticism, have the most to lose from withdrawal of public trust, and are, therefore, in the best position to balance the issues of academic freedom and responsibility.

6.20 Administrator Rights and Responsibilities

 rpm.nmsu.edu/6-20

A. Policy Statements

NMSU's academic and non-academic administrators are entrusted with the day-to-day management and stewardship of this academic enterprise. Through delegations from the Board of Regents to the Chancellor and to the provost and senior vice president for academic affairs and from these officials to the individual administrators, NMSU's administrators are vested with the power, authority and responsibility to make important decisions on behalf of the institution and to lead the faculty and staff who are critical to our success. Great responsibility is placed in the hands of these individuals, and accordingly, they are to be held accountable for upholding the highest standards of ethical conduct, good judgment, inclusiveness, fairness, loyalty and dedication to the duties of their position.

Accordingly, the following principles govern the employment of academic and non-academic administrators:

1. Those administrators who report directly to the Chancellor or to the provost and senior vice president for academic affairs, as well as those who hold the title of Vice President, Associate Vice President and Assistant Vice President, serve at the will of the Chancellor and may be removed from their positions at any time, without cause or implication of criticism.
2. Those individuals holding faculty positions who accept an administrative role of any type hold such administrative appointment at the will of the provost and senior vice president for academic affairs, and may be removed from their administrative positions at any time, without cause or implication of criticism, but in such cases the individual may retreat to a nine-month faculty position, in the academic department in which their tenure was granted or their discipline is represented, at a salary commensurate with the salaries of other faculty of the same rank in their discipline in such department.

3. Removal of at will employees from administrative positions shall be final, without any right of appeal or further recourse.
4. As an exception to this Policy, the Athletic Director and athletic coaches may be hired on a contract basis for a period not to exceed five years.

B. Authorization

The Regents of New Mexico State University authorize the Office of Human Resources, in coordination with the Chancellor and

Provost and Senior Vice President for Academic Affairs, to formulate and amend the Administrative Rules and Procedures (Rules), in accordance with **RPM 1.10** and **ARP 1.10**, to support the policy stated above.

C. Reservation of Authority

Any proposal or document purporting to establish any other employment relationship, or create additional employment rights for individuals holding the positions described in this policy shall be effective only upon approval of the Board of Regents.

A. Policy Statements

The Board of Regents recognize and maintain the culture of innovation at NMSU, in which the discovery, research and development, and entrepreneurship efforts of creators are supported through education, protection of intellectual property rights, and access to commercialization programs and resources. NMSU's community members (faculty, staff, and students) are the individuals who create commercially valuable intellectual property as part of their teaching, scholarship, research, and service duties.

The purpose of this policy is to:

1. Ensure transparency and support the most efficient, streamlined process possible for all parties involved.
2. Establish a formula or formulas by which net earnings from commercialization of IP owned by the university will be allocated between creator(s) and NMSU.
3. Authorize the Intellectual Property (IP) Office to provide advice and assistance to creators by entering into cost and benefit sharing IP agreements, and by assuring compliance with such agreements.
4. Protect NMSU's interests as it makes significant investments in intellectual property development, protection, and commercialization.
5. Authorize the Office for Economic Development, including Arrowhead Center to oversee the activities relating to the evaluation and protection of intellectual property, technology transfer and commercialization activities, consistent with this policy and corresponding Rules.
6. Authorize and Recognize the Intellectual Property and Commercialization Board (IPAC Board) as a standing university board which assists the university by evaluating the market and commercial potential of disclosed inventions and by assisting with the resolution of disputes which arise concerning intellectual property and commercialization.

B. Authorization

The Board of Regents authorizes the provost and senior vice president for academic affairs to formulate rules and procedures which will both promote innovation and entrepreneurship, and protect NMSU's financial and other interests associated with NMSU faculty, students and staff innovations and creations.

NMSU is dedicated to the responsible stewardship of its extensive physical resources including real estate, water rights, buildings, other capital improvements, and a wide variety of personal property including equipment and materials. Legal title to all physical assets, real and personal, is vested in the Board of Regents as the body corporate (NMSA 1978 §§ 21-3-4 et seq.), without regard to the academic or administrative entity that occupies or otherwise uses the asset. NMSU shall preserve adequate land holdings and water rights to meet all current and foreseeable academic and support needs. NMSU shall seek to enhance and maximize the productivity of those assets which exceed the current needs of university operations in a prudent manner that is designed to provide as much benefit to the university as feasible.

B. Reservation of Authority

The Regents are responsible for ensuring the efficient and appropriate acquisition, use, maintenance, and disposition of the University's physical resources. **Toward that end, each of the following actions or events require approval of the Regents:**

2. Any transaction which would permanently affect NMSU's rights in real estate or water rights.

3. Any capital project which results in the addition of building square footage, whether from the construction of new facilities or addition to existing facilities or purchase of portable structures.
4. Any proposal to issue bonds for capital improvements.
5. Any alteration or site improvement costing over \$300,000.
6. Any demolition of all or any portion of an existing building.
7. Any increase of more than 10% of the budget or reduction of more than 10% in the gross square footage of an approved capital project.
8. Proposals for the use of any funds derived from the sale, lease or transfer of real estate interests or water rights.
9. Any proposal for disposition of obsolete, worn-out or unusable tangible personal property on the university capital asset list.
10. The adoption of campus master plans for each campus.

*Note: State Law requires certain approvals from and notifications to state agencies for certain transactions relating to real estate and capital improvements. **Appendix 12.00-A** provides a summary of these legal requirements.*

C. Rulemaking Authorization

The Regents of New Mexico State University authorize the Chancellor to formulate and amend the Administrative Rules and Procedures (Rules) addressing the management of the university's real estate, water rights, capital improvement projects, construction projects, campus space and use planning, maintenance and repair of university facilities and grounds, equipment and supply inventory. Such Rules shall be consistent with this policy.

1. Real estate transactions involving a term of less than ten (10) years, including any options to extend;
2. Real estate transactions which involve a total university cost or liability (excluding operating expenses) of no more than \$100,000 per year; and

Such uses shall include agreements relating to access, utilities installations, data/telecommunications facilities, rights of way, ingress, egress, sanitary sewers, pipelines and drainage.

13.10 Investment of University Funds

 rpm.nmsu.edu/13-10

A. Policy Statement

NMSU seeks to manage and prudently invest cash balances, and to maximize the efficiency of the university's cash management system. The goal of this policy is to ensure investment of funds in a manner which provides for the safety of principal and adequate liquidity, while maximizing investment income. This policy will apply to all cash balances of the university, with the sole exception of those cash balances associated with the university's Endowment Funds, which are invested under a revocable trust agreement by the NMSU Foundation, Inc. All investment decisions will be made with due care and judgment, taking into consideration principal preservation in addition to income maximization, and not for speculative purposes.

B. Permitted Investments

Cash balances of the university may be held in interest and noninterest bearing demand and interest-bearing time deposits of financial institutions, or invested in investment grade securities and/or other financial instruments. The university will invest in conformity with federal and state laws and regulations applicable to an instrumentality of a political subdivision. These laws and regulations include, but are not limited to NMSA 1978, §6-10-10, NMSA 1978, §§46-9 A -1 through 46-9 A-10, and Internal Revenue Code, Section 148 (Arbitrage).

C. Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair the ability to make impartial investment decisions.

D. Authority

The Board of Regents is granted authority under state statute to manage the investment of its cash balances. Within the university, the senior vice president for administration and finance (SVPAF) is delegated the authority to make investment decisions. Investments decisions shall be made by the SVPAF in consultation with internal advisors from the Office of the Controller. Investment decisions will be reviewed with the Chancellor on a regular basis, at least semi-annually. The administration is authorized to adopt Rules as may be necessary and proper for the implementation of this policy. No such Rule may be implemented without the concurrence of the SVPAF.

13.30 Bonds – Post-Issuance Tax Compliance

 rpm.nmsu.edu/13-30

A. Purpose and Authority

The Regents of New Mexico State University (the “Issuer” or “Board of Regents”) hereby authorize and direct the adoption of Post-Issuance Tax Compliance Procedures (the “Procedures”) as part of the university’s Administrative Rules and Procedures, for the purpose of: (1) maximizing the university’s compliance with the federal tax law requirements applicable to its outstanding tax-exempt bonds and obligations, (the “Bonds”); and (2) identifying and resolving any noncompliance matters, on a timely basis, to preserve the tax-exempt status of the Bonds.

B. Policy Statements

1. **Adoption of Procedures:** The administration is directed to establish and maintain written procedures to: (1) ensure that any Bonds that no longer qualify for tax-exempt status are identified and remediated in accordance with the requirements of the Internal Revenue Code of 1986, as amended (the “Code”) and applicable regulations, including the remediation provisions of Treas. Reg. Sec. 1.141-12 or other remedial actions authorized by the Commissioner of the Internal Revenue Service under Treas. Reg. Sec. 1.141-12(h); and (2) monitor compliance with the requirements of Section 148 of the Code (which include arbitrage, yield restriction and rebate requirements) and related regulations.
2. **Appointment of Compliance Officer:** The Board of Regents designates the Senior Vice President for Administration and Finance to serve as the Post-Issuance Tax Compliance Officer (the “Compliance Officer”) for purposes of this policy and the Procedures adopted as required by this policy.

3. **Monitoring of Post-Issuance Compliance:** The Compliance Officer will be responsible for monitoring post-issuance compliance for the Bonds pursuant to the Procedures. The Compliance Officer may designate employees of the university to carry out the duties under these Procedures on the Compliance Officer's behalf in the same manner and with the same effect as any similar designation for any other purpose permitted by law.
4. **Compliance with Covenants in Bond Documents:** The Compliance Officer will ensure compliance with all covenants made by the university in the documents related to the Bonds (the "Bond Documents") which must be complied with to maintain the preferential tax status of the Bonds, including, but not limited to use of the Bond-financed facilities, timely completion of arbitrage rebate calculations, required filings and restrictions on investment of Bond proceeds.
5. **Federal Tax Law Compliance:** The Compliance Officer will take such actions as may be necessary to comply with federal tax law as it relates to post-issuance including any specific actions as may be specified in the Administrative Rules and Procedures.
6. **Remedial Action:** If at any time during the life of a Bond issue, the Compliance Officer determines, after consultation with bond counsel, that a violation of federal tax law requirements applicable to that issue has occurred, the Compliance Officer will inform the Board of Regents, and the Board will take prompt action to accomplish an available remedial action under applicable regulations or to enter into a closing agreement with the IRS under the IRS's Voluntary Closing Agreement Program or other future published guidance.

13.33 – Bonds – Continuing Disclosure Procedures

 arp.nmsu.edu/13-33

PART 1: PURPOSE

This rule fulfills the directive set forth in **Regents Policy 13.33** by providing guidelines and procedures necessary as required by federal securities laws to fulfill the university's obligation of post-issuance continuing disclosures related to the university's bonds and loans.

PART 2: TYPES OF DISCLOSURE GOVERNED BY THESE PROCEDURES

NMSU will use the procedures set forth in this rule in connection with the forms of disclosure listed in this Part (collectively, "Disclosure Documents").

A. **Primary Disclosure**

1. Preliminary Official Statements
2. Final Official Statements

B. **Secondary Disclosure**

1. **Continuing Disclosure.** Examples of a Continuing Disclosure include annual reports and notices of specified events provided pursuant to a continuing disclosure agreement.
2. **Voluntary Disclosure.** Examples of a Voluntary Disclosure include quarterly financial information, a change in fiscal year and other financial or operation information, amendments to continuing disclosure undertakings, a change in obligated persons, or other event-based disclosures.

C. Other Disclosure

1. **Material Information.** Information about NMSU that is material and reasonably expected to reach investors. Information is material if there is a substantial likelihood that it would be considered significant by a reasonable investor. An example of material information includes financial information on NMSU's website such as NMSU's budget and fiscal reports; public statements regarding NMSU's finances that are made by NMSU representatives.
2. **Statements or Omissions related to the Tax Status of NMSU's Obligations.** Examples of this type of Other Disclosure include statements or omissions in tax certificates, loan agreements or other documents relied on by bond counsel.

PART 3: DISCLOSURE TRAINING

The Senior Vice President for Administration and Finance (SVPAF), also the university's Bond Compliance Officer, is charged with the responsibility of retaining bond counsel and/or disclosure counsel. The SVPAF or designee shall work with such counsel to create, implement and periodically revise ongoing disclosure compliance training. The SVPAF or designee shall receive disclosure training related to federal securities laws, as well as training related to their role in preparing NMSU's Disclosure Documents.

PART 4: CONTINUING DISCLOSURE DUTIES AND RESPONSIBILITIES

With the assistance of bond counsel or disclosure counsel, the SVPAF, as the Bond Compliance Officer, will do or cause the following to be done:

- A. **Monitor Compliance on a Weekly Basis.** In addition to the filing of annual reports, NMSU must provide a Notice of Event as specified in NMSU's continuing disclosure undertakings. Generally, an Event Notice must be provided to the Municipal Securities Rulemaking Board within ten business days after the occurrence of such event. In order to ensure compliance with NMSU's continuing disclosure undertakings, the SVPAF or designee shall review the list of events specified in NMSU's continuing disclosure undertakings on a weekly basis to determine whether any such event has occurred that may require notice.
- B. **Verify Primary Disclosure at Key Times.** NMSU's Preliminary and final Official Statement must not contain any untrue statement of material fact, or omit to state a material fact necessary to make the statements made therein, in the light of the circumstances under which they were made, not misleading. The SVPAF or designee must verify the accuracy of its primary disclosure not only during drafting and review, but also at the time of (i) posting or mailing the Preliminary Official Statement, (ii) pricing of NMSU's bonds or loans, and (iii) at the time of closing of the transaction. If developments occur that may make NMSU's primary disclosure inaccurate or incomplete as described above, the SVPAF or designee will work with the disclosure counsel and/or bond counsel to remedy these potential issues.
- C. **Address Issues and Questions Promptly.** Everyone who participates in creating or reviewing a Disclosure Document should promptly address issues that arise throughout the disclosure process. The SVPAF or designee and Responsible Parties must address and resolve all questions they may have regarding the accuracy and completeness of a Disclosure Document.
- D. **Consider Missing Information.** Instead of simply updating numerical data from one year to another, Responsible Parties and the SVPAF or designee must consider what might be missing from Disclosure Documents. For example, material developments related to NMSU's financial condition may have occurred, cost projections for a project may have changed or laws affecting NMSU may have been enacted. Material developments such as these may not appear in prior Disclosure Documents and therefore cannot be adequately disclosed by simply updating prior Disclosure Documents.

E. Encourage Disclosure Team Members and others to Raise Issues.

Responsible Parties, the SVPAF or designee, and any other participants have a duty to carefully consider and question the information in Disclosure Documents to ensure that NMSU's disclosure is complete and accurate. Issues and questions regarding the completeness or accuracy of any Disclosure Document should first be raised internally. Such questions should be discussed with the SVPAF or designee, university general counsel, bond counsel or disclosure counsel, and others within NMSU until resolved.

F. Conduct Annual Review of Procedures. The SVPAF or designee will review these procedures no less than annually and will periodically consult with bond counsel and/or disclosure counsel to ensure these procedures are effective in producing disclosures that are accurate, complete and in compliance with federal securities laws.

16.46 Auditors, Internal – Audit Services

 rpm.nmsu.edu/16-46

A. Purpose

This policy establishes and authorizes Audit Services as the administrative unit tasked with performing internal audit functions, and reporting to the various NMSU components, The Regents Audit and Risk Committee (RARC) of the Board of Regents, and the Vice Chancellor and/or the Board of Regents.

B. Mission and Internal Audit Function

Audit Services provides university-wide, independent, objective assurance and consulting services designed to add value to, and improve university operations. It helps the university community accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. Audit Services assists members of management in effectively carrying out their respective responsibilities by determining whether the organization's network of risk management, control and governance processes are adequate to ensure that:

1. Risks are appropriately identified and managed;
2. University policies and procedures, and external laws and regulations are followed;
3. Resources are acquired economically, used efficiently, and are adequately protected;
4. Significant financial, managerial and operational information is accurate and reliable;
5. Program objectives are achieved and are consistent with university objectives.

C. Authority

The internal audit staff is authorized full, free and unrestricted access to all university records in any form; to all facilities and real estate; and to all personnel relevant to an audit. With approval from the NMSU affiliated organization, internal audit staff may review records of affiliated organizations in conjunction with a specific university audit. Internal audit staff is correspondingly responsible for handling documents and information obtained in a prudent and ethical manner.

D. Neutrality

Internal auditors will avoid participating in activities that might reasonably appear to compromise their independence or objectivity. They will have no direct responsibility or authority over any of the operating activities examined, and their review does not relieve operating personnel of their responsibilities.

E. Internal Audit Duties

The chief audit executive and staff of Audit Services have responsibility to:

1. Develop a flexible annual audit plan using appropriate risk-based methodology, including concerns identified by management, and submit the plan to the RARC for review and approval;
2. Operate in accordance with the International Standards for the Professional Practice of Internal Auditing and the Code of Ethics of the Institute of Internal Auditors;
3. Provide audit reports and memoranda that contain reasonable and cost-effective recommendations for control issues identified, and facilitate the resolution of audit issues with appropriate managers;
4. Suggest the need for policies and procedures where appropriate, or changes to existing policies and procedures;
5. Perform appropriate assurance, advising, and consulting services defined as services intended to add value and improve governance, risk management, and control processes, and to assist management in meeting its strategic objectives;
6. Assist in the investigation of significant suspected fraudulent activities within the university;

F. Reporting Structure

In order to maintain independence, the staff of Audit Services reports to the chief audit executive, who reports administratively to the Vice Chancellor and functionally to the RARC and/or the Board of Regents. The chief audit executive shall meet with the RARC periodically, as outlined in the RARC Charter (See Appendix 1 – C) and will present an annual report on the activities and operations of the department. The RARC will provide oversight of the selection and periodic review of the Chief Audit Executive.

G. Scheduling Audit Projects and Reporting Results

With the exception of emergency audits and those requiring an element of surprise, audit clients will receive advance notice of planned audits and Audit Services staff will make reasonable efforts to accommodate client needs in terms of scheduling.

1. Audits involving suspected fraudulent activities are processed differently from other internal audits, so as not to compromise a police investigation or personnel action.
2. At the conclusion of an audit project, the chief audit executive will issue a formal report or audit memorandum to the audit client and appropriate members of senior management.
3. On an annual basis or as time permits, Audit Services staff will perform a follow-up on formal recommendations included in audit reports and memoranda. Follow-up reports will summarize the status of audit issues and any actions taken by management to resolve the issues. Any items not resolved at the conclusion of a second follow-up, will be referred to the Vice Chancellor and to the RARC for resolution.

Results of audit work are shared with the RARC and with the Board of Regents on an annual basis, or more often if appropriate.

16.60 Responsible Alcohol Use

 rpm.nmsu.edu/16-60

A. Policy

The Board of Regents of New Mexico State University recognizes that diversity of opinion and freedom of choice are concepts upon which higher education has been established. Inherent within these two basic concepts are the exercise of individual responsibility and making informed decisions on matters related to personal behavior.

Within the university setting, faculty, staff and students must demonstrate a mutual respect and commitment to the institution's educational mission, while at the same time fostering diversity of opinion, freedom of choice, and responsibility. In this regard, the university respects the choice of those of legal age to consume alcohol, providing they do so in accordance with NMSU policy, rules and procedures, and all applicable laws.

B. Authorization of Rules Pertaining to Responsible Use of Alcohol

The Board of Regents authorizes the NMSU administration to adopt and enforce rules and procedures to regulate the use of alcohol at any function or event held on the property owned by the university, as well as at off-property functions and events sponsored by NMSU units and NMSU chartered organizations.

C. Disclaimer of Liability

NMSU recognizes it cannot protect its employees, and students from making decisions that could potentially cause harm to themselves or others. NMSU disclaims any intention to assume duties to protect its employees and students from their own abuse of drugs or alcohol or to protect third party persons from conduct of university employees or students.

ARTICLE III – MEMBERSHIP

Section A: The staff of the university, for the purposes of the constitution, shall consist of those people who are regular part-time and regular full-time employees who are not eligible to be members of a collective bargaining unit. Further elaboration of this definition shall be done as needed by NMSU Employee Council.

Section B: Membership of the NMSU Employee Council shall be elected from the following areas which they shall represent. However, individual representatives shall not be restricted to considering matters pertaining only to the area from which they were elected. For purposes of voting and election, employee areas (as recorded in the Office of Human Resource Services) are broken down as follows:

1. **"Las Cruces Area"** (includes Las Cruces campus, Doña Ana Cooperative Extension and Doña Ana Community College) will be divided into faculty; exempt staff; and non-exempt staff not represented by a bargaining unit. Through the election process, NMSU Employee Council will put forth its best efforts to assure:
 1. Membership represents the demographic distribution of classifications (i.e. faculty, exempt and non-exempt staff not represented by a bargaining unit); and
 2. Membership includes no more than one representative per classification from a NMSU summary organization as defined in the Banner hierarchy.
2. **"Community Colleges outside Las Cruces Area"** (includes all Community Colleges outside Doña Ana County) will be considered as a separate area.

3. **“Others Outside of Las Cruces Area”** (includes Research Centers, Cooperative Extension and other remote facilities) will be considered as a separate area.

Non-exempt employees represented by a collective bargaining unit are not included in NMSU Employee Council membership. The non-exempt employees not represented by a collective bargaining unit (non-probationary, non-exempt employees who are supervisors, managers, and confidential employees, sworn police officers, and employees employed outside the State of New Mexico) will be included in NMSU Employee Council membership.

NMSU Employee Council membership should reflect actual demographic distribution of regular employees at NMSU and total voting membership shall be 20. To maintain a representative membership, demographic distribution data will be reviewed prior to election in odd years and membership adjusted according to the distribution at that time. NMSU Employee Council Chair-Elect will prepare demographic distribution data and recommend distribution of membership for the following: Las Cruces Area distributed into faculty, exempt, non-exempt not represented by a bargaining unit; Community Colleges outside Las Cruces Area; and Others Outside of Las Cruces Area. The recommended distribution will be presented to NMSU Employee Council members in October for review and approval.

The number of alternates for each classification will be fixed. Las Cruces Area will have four alternates each. Community Colleges outside Las Cruces and others outside of Las Cruces Areas will have one alternate each. NMSU Employee Council will put forth its best efforts to assure that alternates have no more than one representative per classification from a NMSU summary organization as defined in the Banner hierarchy.
